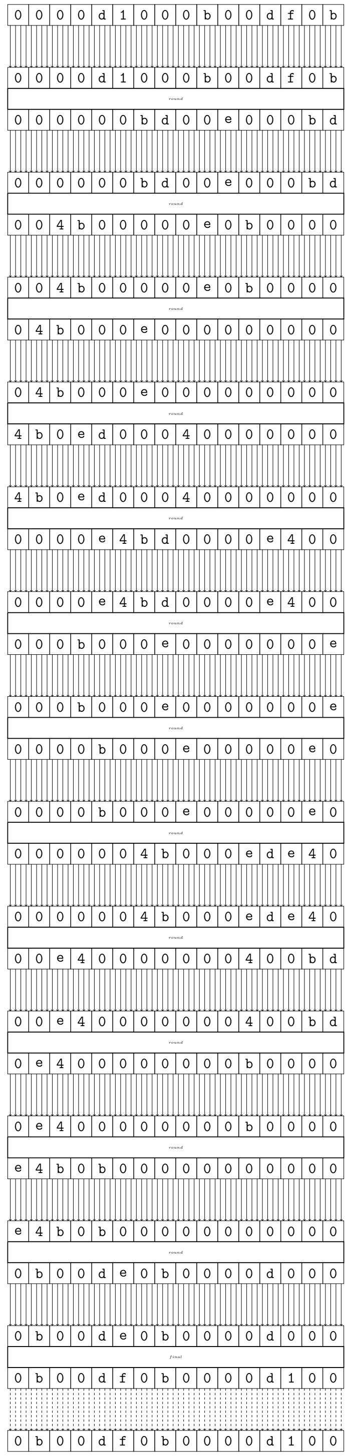
Bitwise differential trail through TWINE found by SAT

CiVerLy

July 24, 2026

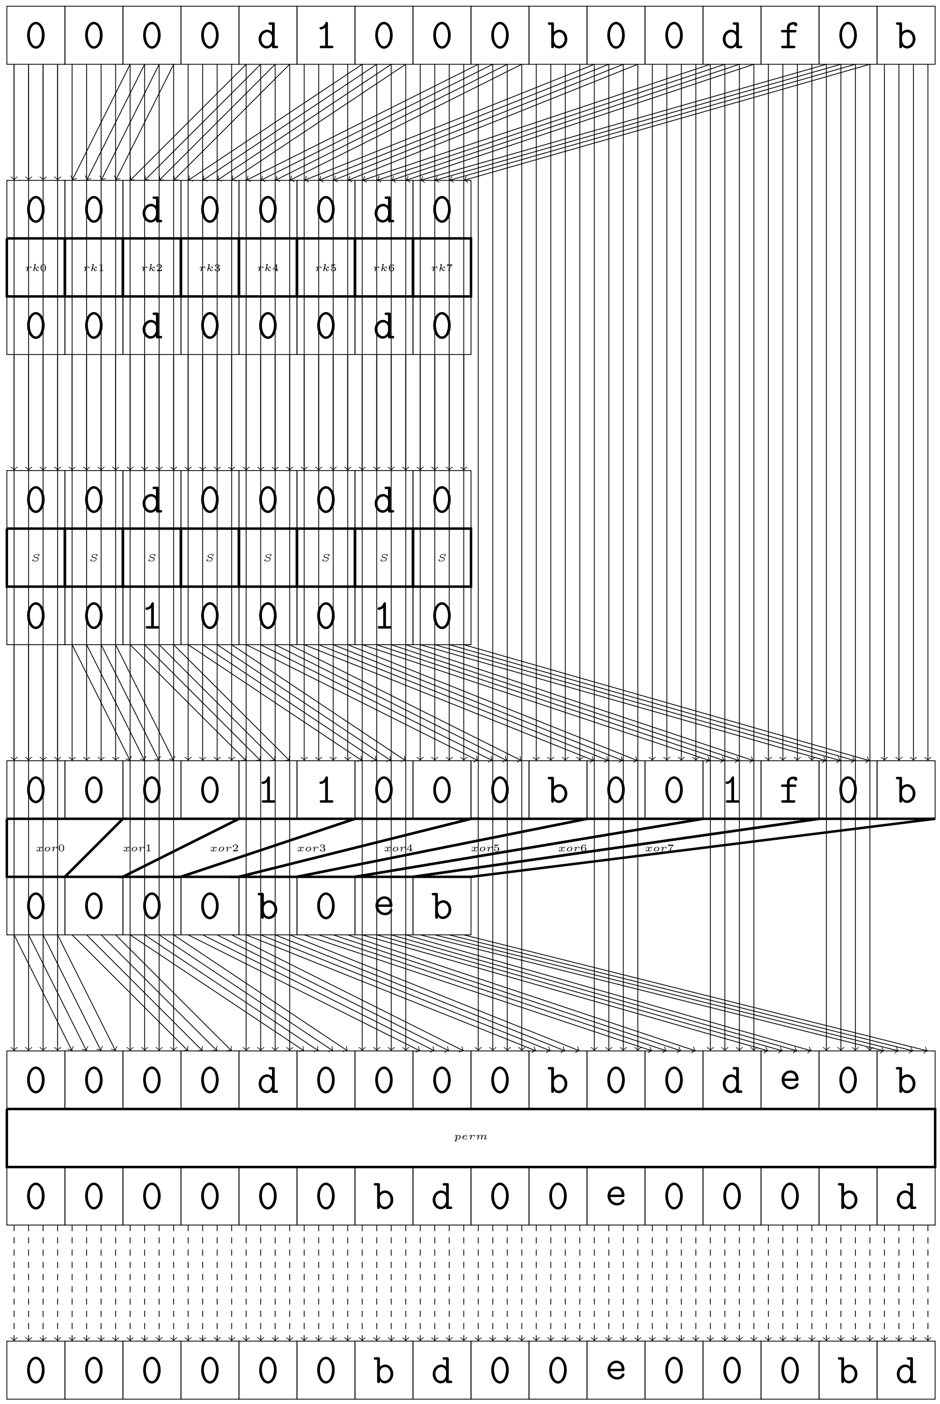
1 TWINE

Maximal differential probability: 2^{-58}



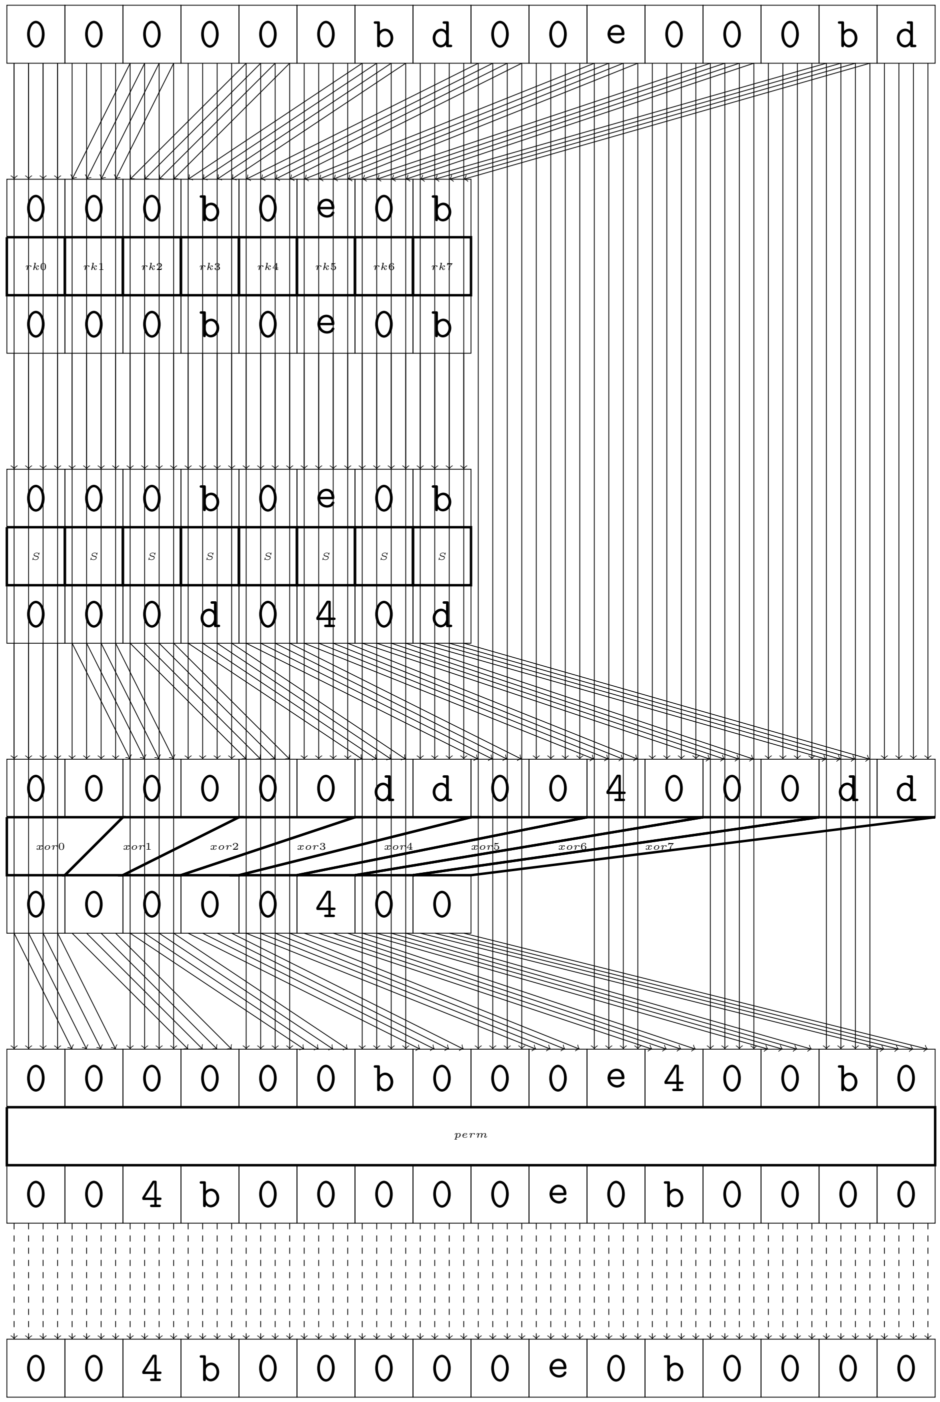
2 round

Maximal differential probability: $2^{-4.0}$



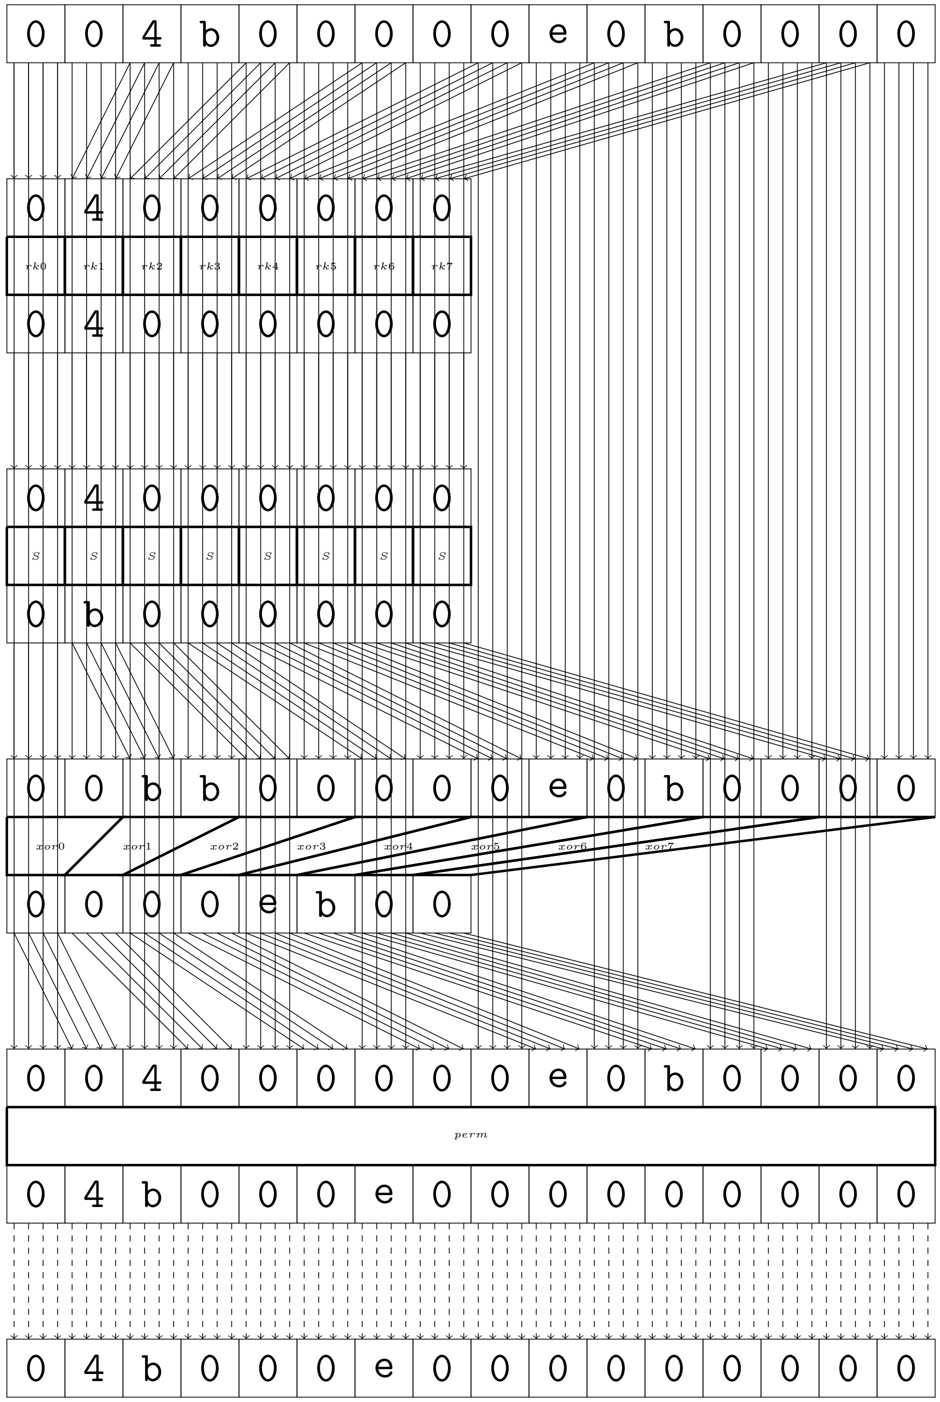
3 round

Maximal differential probability: $2^{-6.0}$



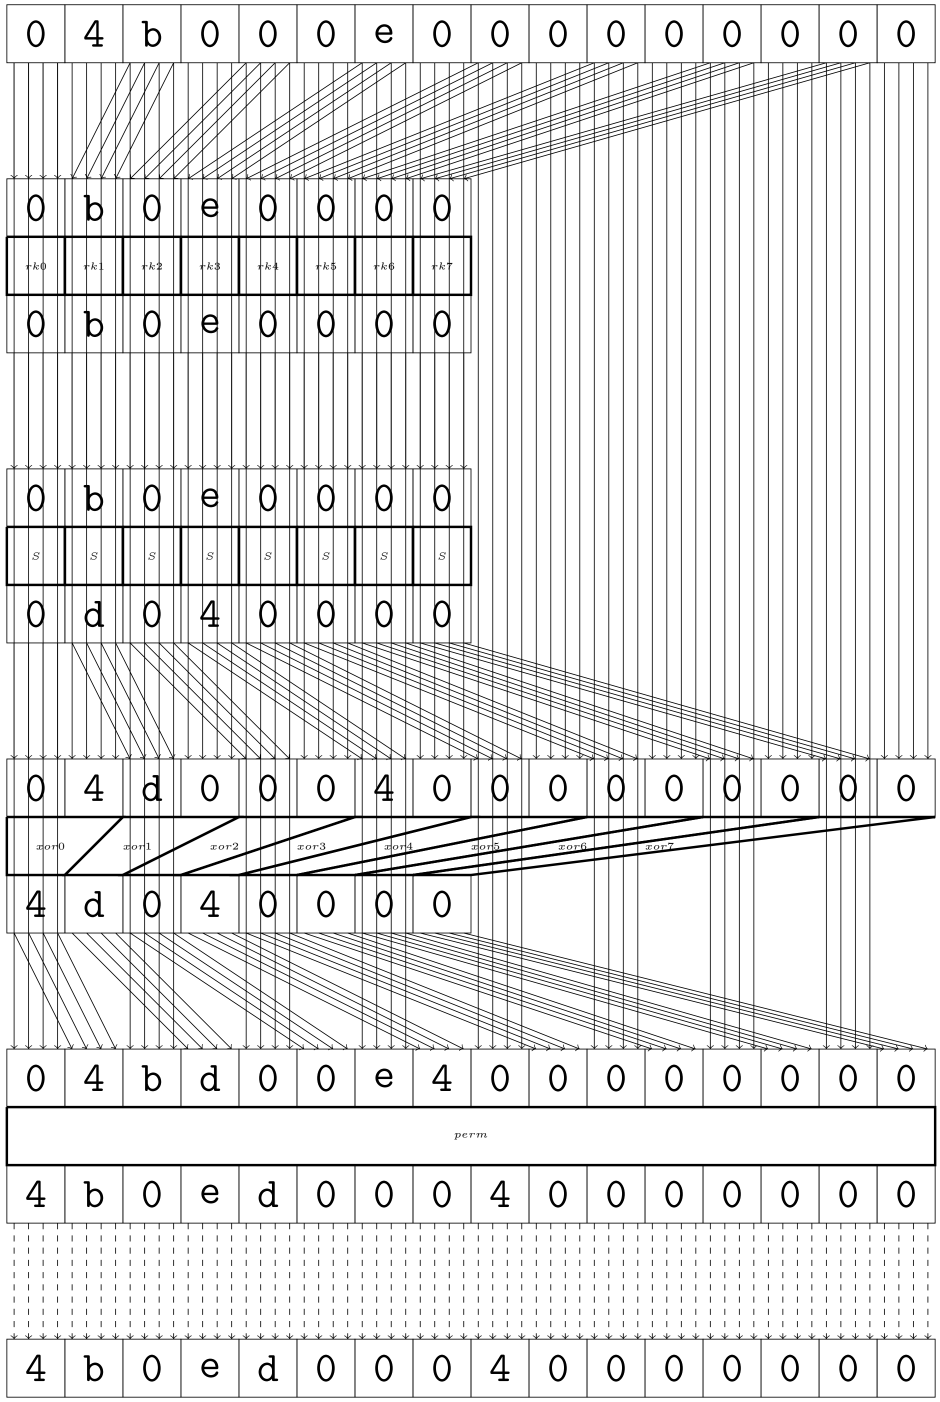
4 round

Maximal differential probability: $2^{-2.0}$



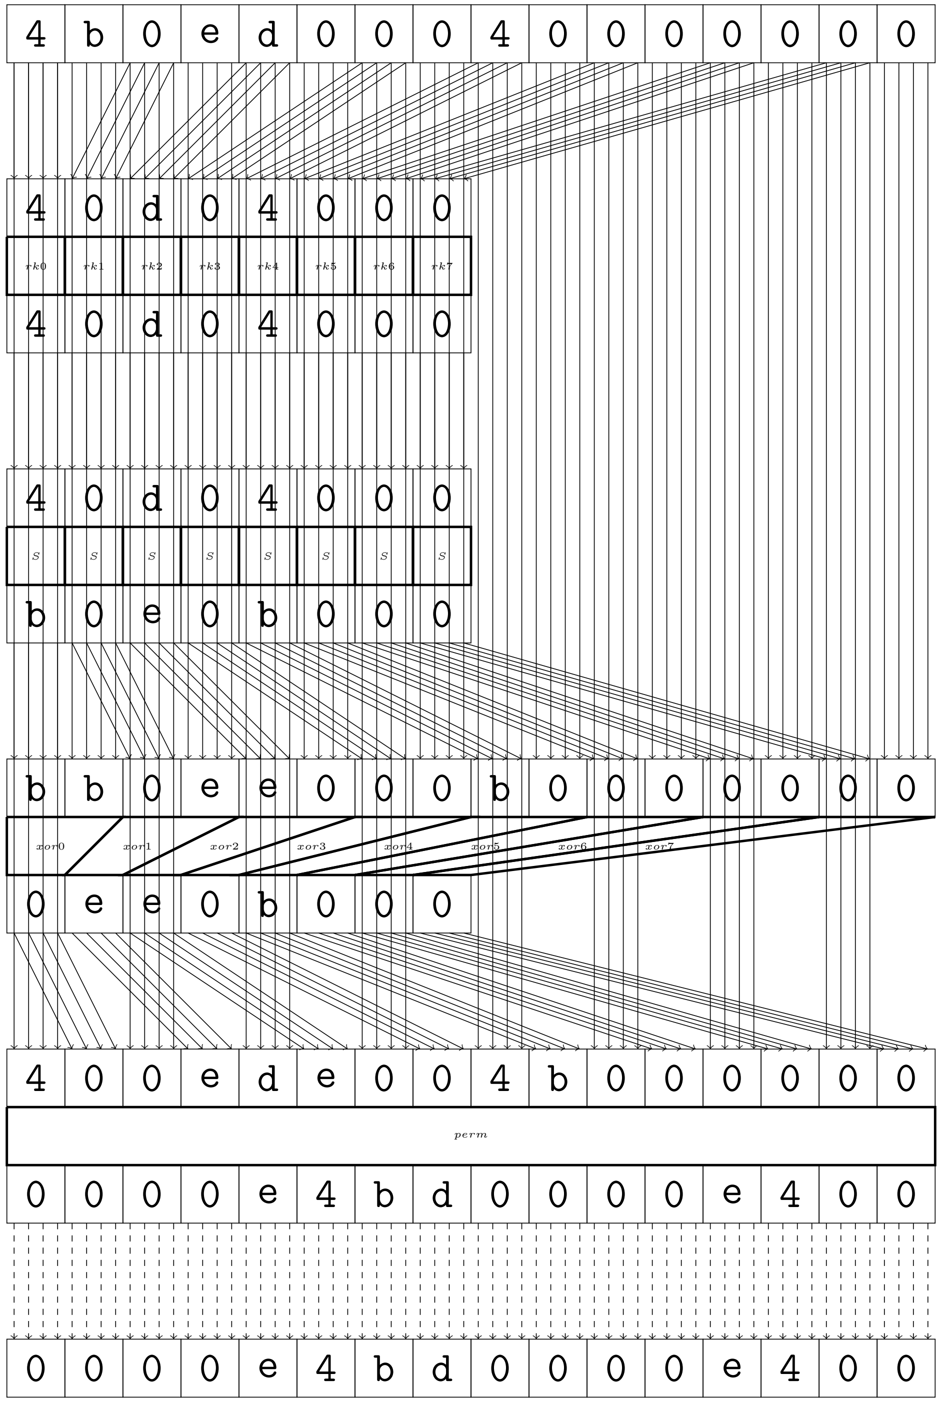
5 round

Maximal differential probability: $2^{-4.0}$



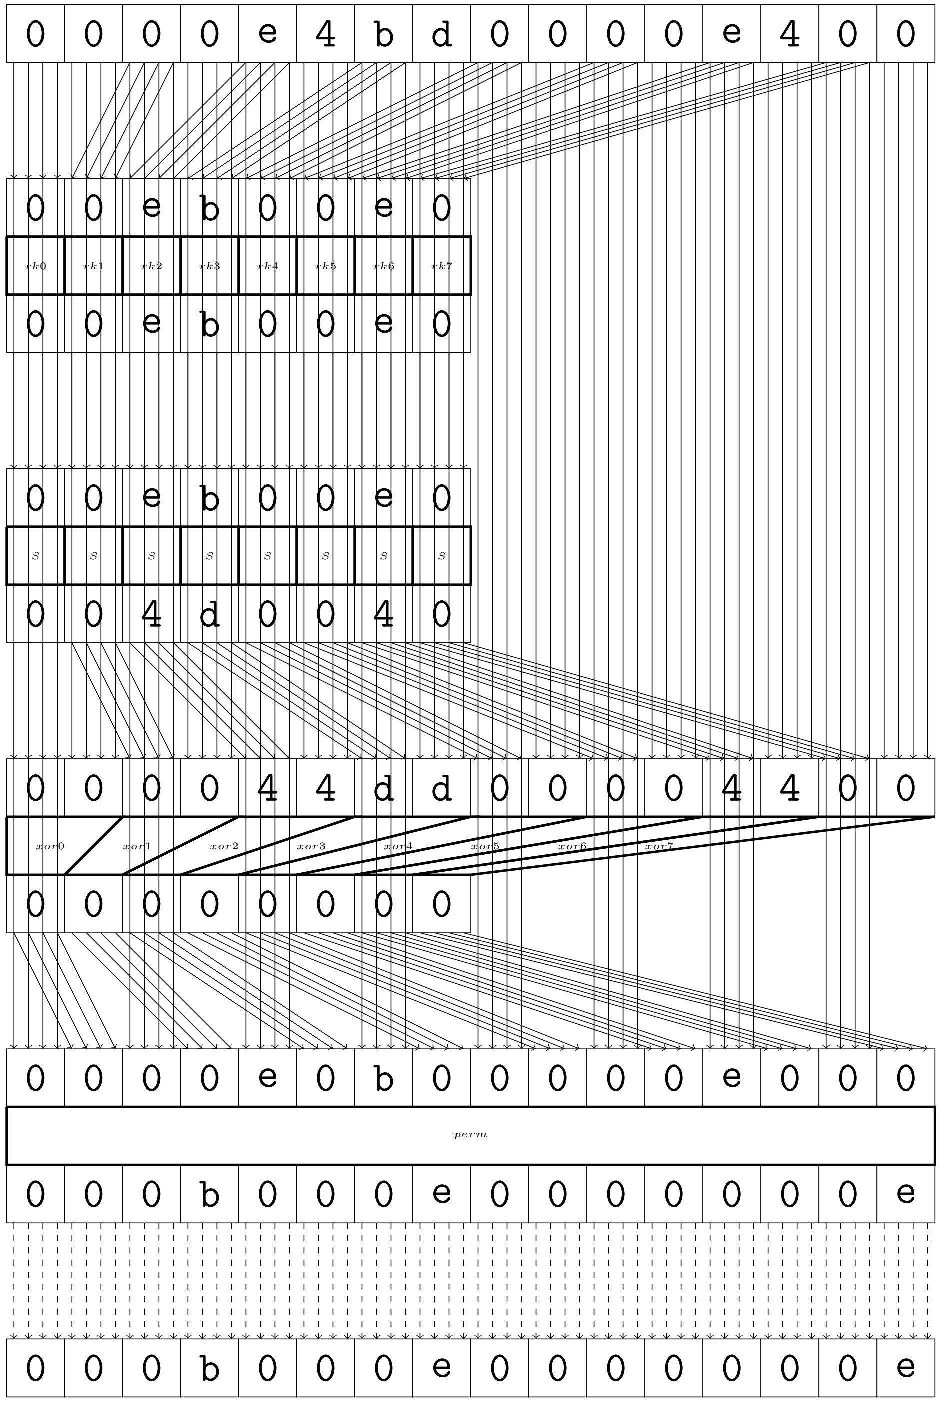
6 round

Maximal differential probability: $2^{-7.0}$



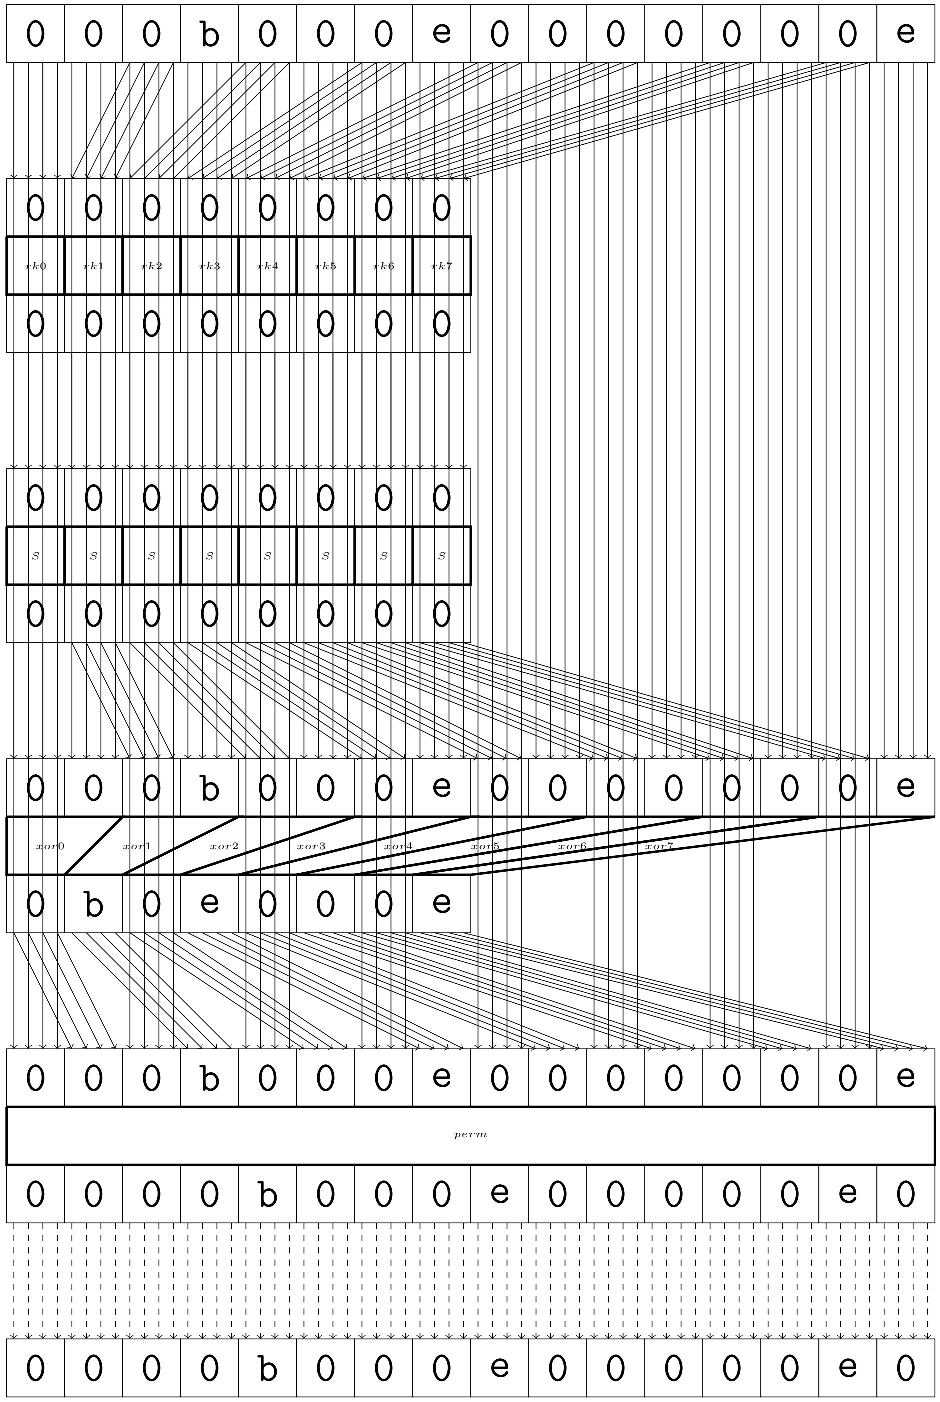
7 round

Maximal differential probability: $2^{-6.0}$



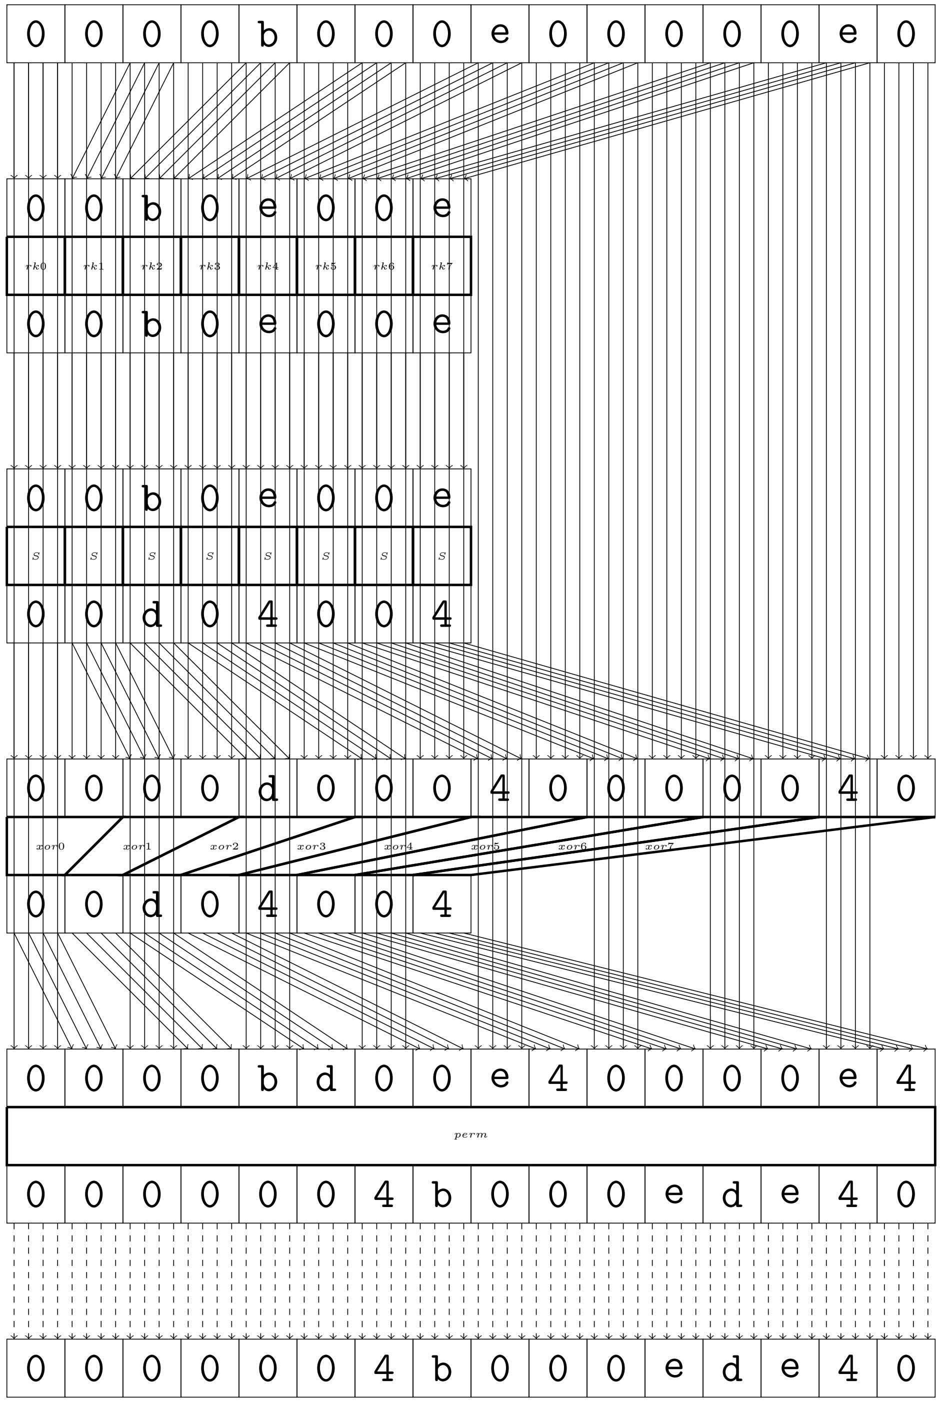
8 round

Maximal differential probability: $2^{-0.0}$



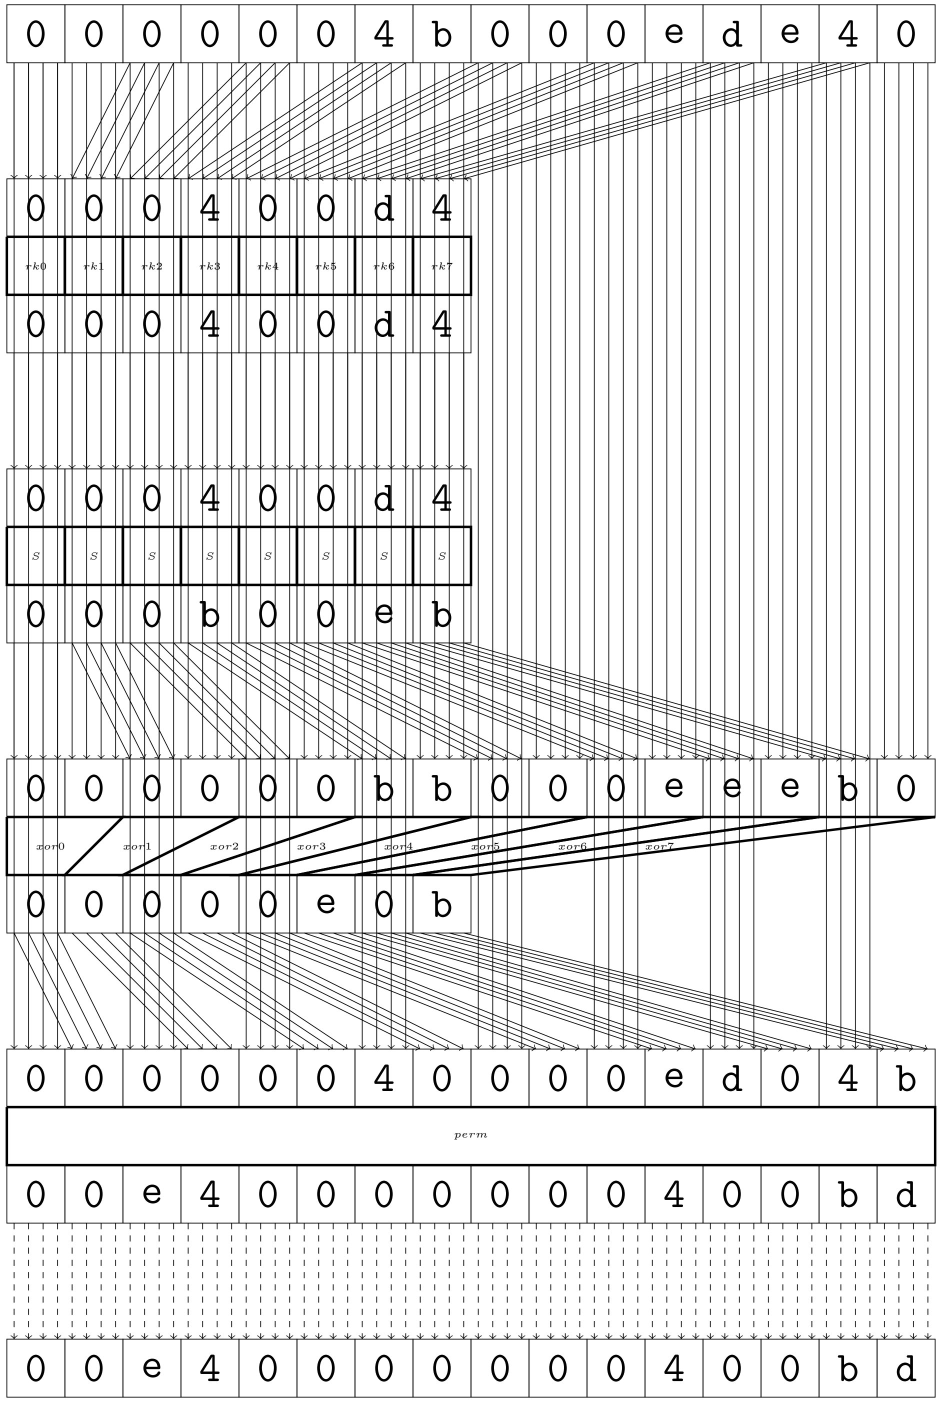
9 round

Maximal differential probability: $2^{-6.0}$



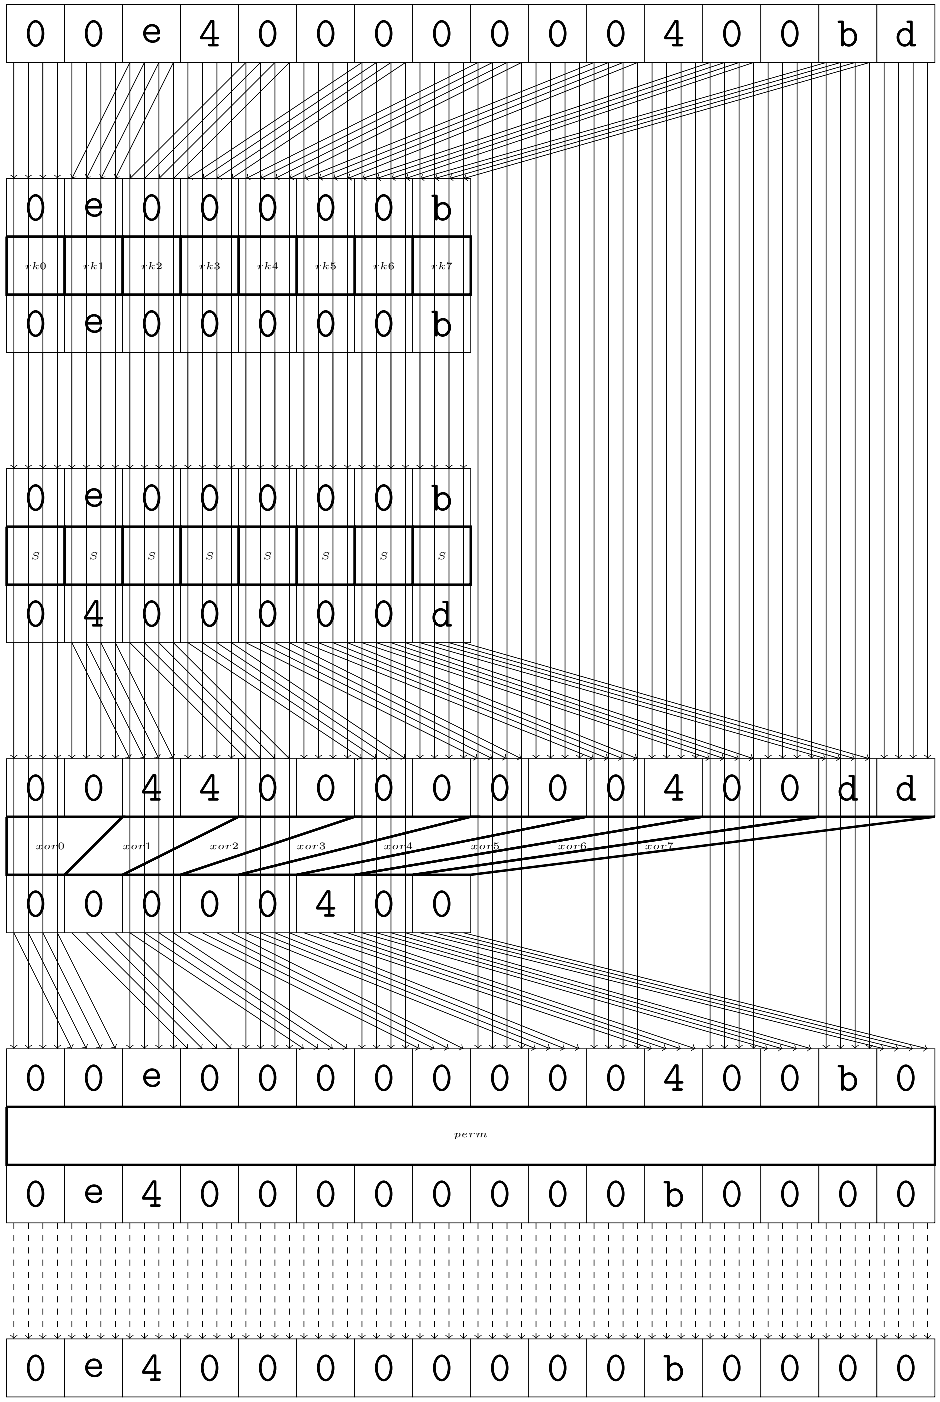
10 round

Maximal differential probability: $2^{-7.0}$



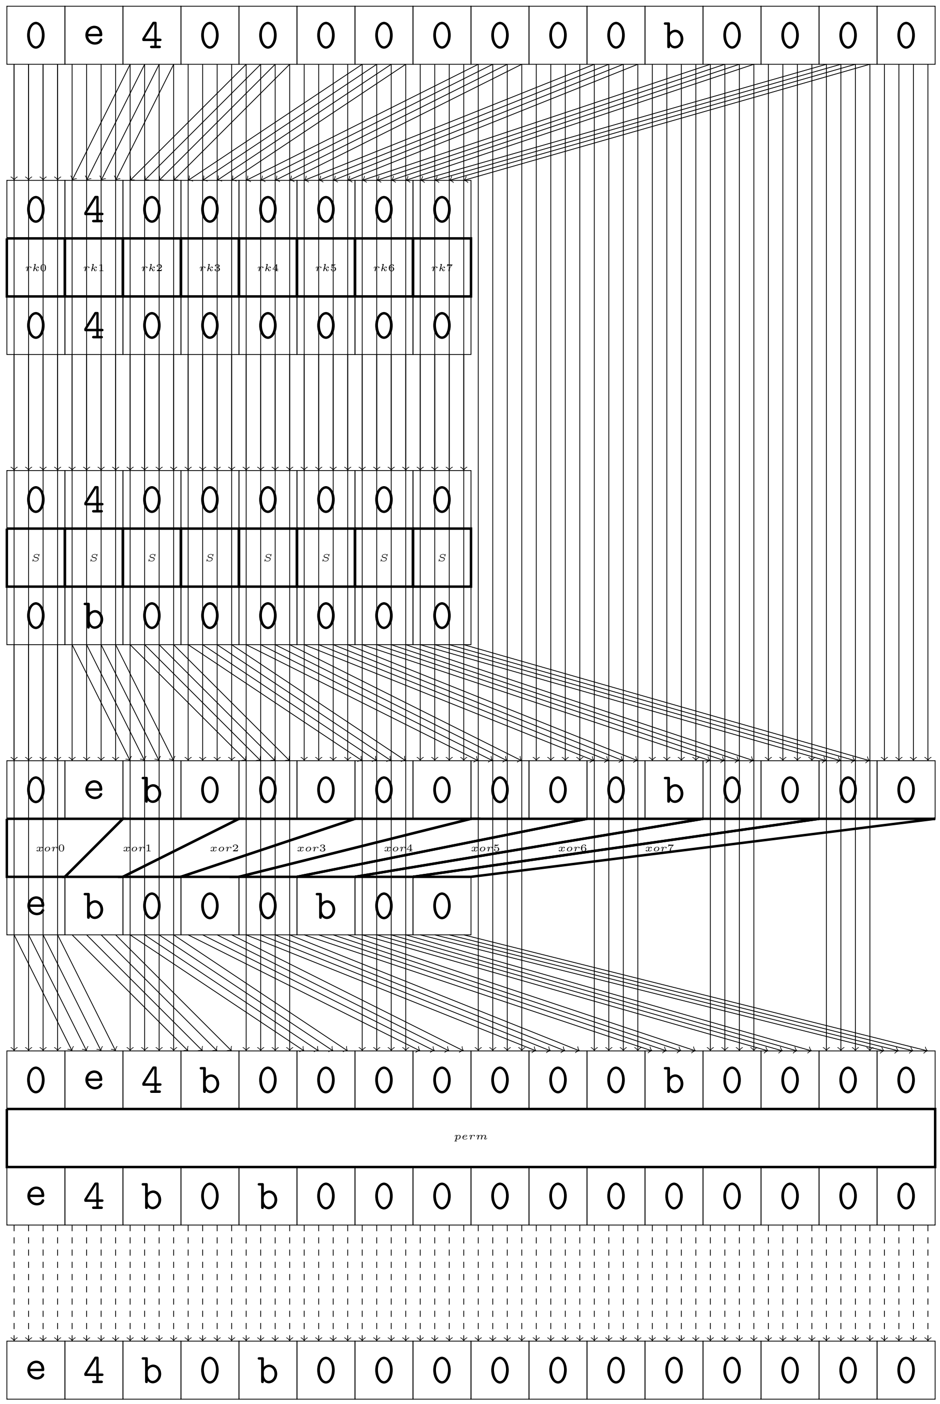
11 round

Maximal differential probability: $2^{-4.0}$



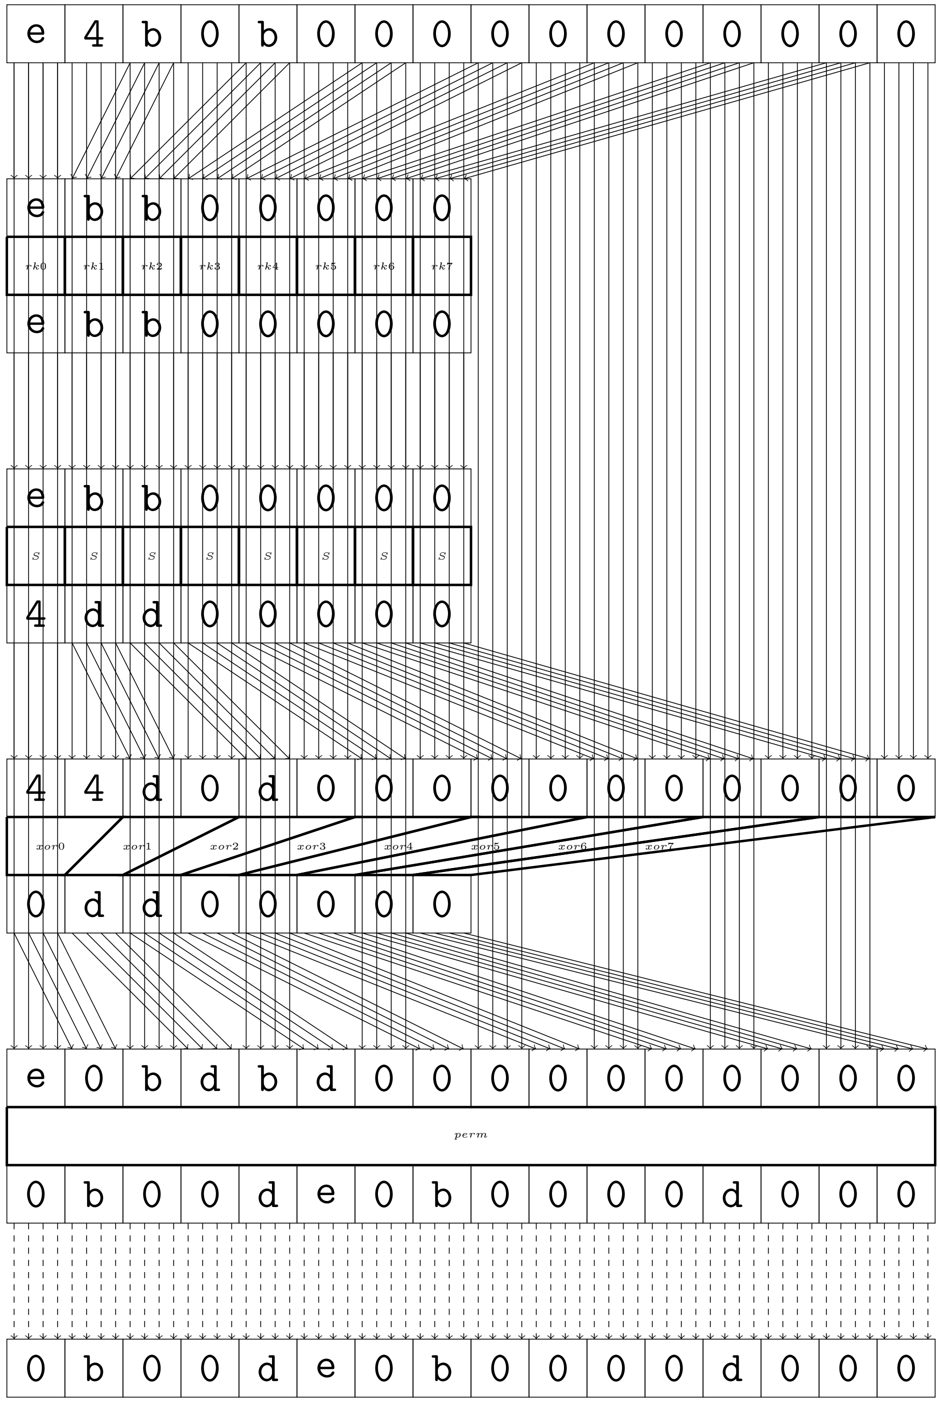
12 round

Maximal differential probability: $2^{-2.0}$



13 round

Maximal differential probability: $2^{-6.0}$



14 final

Maximal differential probability: $2^{-4.0}$
